So what morons created this gerrymandering state districts? I've gotten several emails from go blue democrats nationally about gerrymandering being wrong? Did you not get the memo?

No sitting rep or senator should have their districts drawn to preserve their seat. Districts should look more square/rectangular as possible instead of a cook county spider stretching its legs down the state. Seriously. You guys wonder why the common folk distrust politicians. Pathetic.

May you all be removed from office.

Chad
